

METHOD FOR STORING AND HANDLING A ROLL IN A PAPER  
MACHINE, INCLUDING A ROLL BOX

Abstract

5 A method for storing and handling a roll of a  
paper machine, board machine, or finishing machine  
includes using a special base arranged for the roll on  
which the roll is moveable from its operating location  
to a roll store and/or to a transport, or for storing  
the roll in the store. The base is made into a roll box  
10 inside of which suitable heat and humidity conditions  
are arranged for the roll. The conditions are  
maintained when using such a base or area as the roll  
store.
